

## **JOB POSTING**

---

### **Position: Systems Analyst / Developer**

---

#### **Tennessee Department of Finance and Administration Division of Budget**

#### **Summary:**

This is a technical position, under the general supervision of the technology coordinator, supporting the business applications used in the Division of Budget. This position is a full-time executive service appointment (not a contracted position) in Nashville, Tennessee.

#### **Duties and Responsibilities:**

- Application Support – Development, maintenance, and operation of applications supporting the business processes in the Budget Division using Microsoft SQL Server integration services (SSIS) and analysis services (SSAS)
- Reporting – Modification of existing reports and development of new reports using Microsoft SQL Server reporting services (SSRS)
- Business Process Review – Participation in the evaluation, design, development, testing, and implementation of technology solutions to support improvements in business processes
- Technical Support – Liaison between end-users and IT support service entities

#### **Qualifications:**

- A bachelor's degree in information technology, computer science or other related curriculum, or a bachelor's degree in Business Administration or related curriculum, with an emphasis on information systems
- Experience using Microsoft SQL Server 2012+ including integration services (SSIS), analysis services (SSAS), and reporting services (SSRS).
- Must be authorized to work lawfully in the United States (unable to sponsor work visas). Must be willing to relocate to Nashville, if necessary, with no relocation assistance.

#### **Desired Skills and Experience:**

- One (1) year work experience or more in systems analysis, design, development and implementation of budgeting and financial applications
- Technical Knowledge
  - Experience using .NET framework (version 4.5) including the MVC development modules
  - Experience with MDX a plus
